Opis produktu

BirdDog Central

BirdDog Central is a software platform that is set to redefine the way we think about pushing content to TV screens. By teaming up Central with Mini or Studio NDI you can now drive your NDI® streams to any BirdDog hardware destination.

Attach Mini to HDMI screens or Studio NDI to SDI screens to use as an NDI® decoder to and with just two button clicks you can deliver NDI® live feeds or playout a media file on your Windows 10 device to any television screen, projector, or large screen anywhere on the network.

Features:

- **Two clicks** - It’s really that simple to get NDI® content onto your screen. Just two button clicks and you are done.
- **Group your receivers** - Group up BirdDog Mini or Studio NDI and you can push NDI® content to any number of screens – 10, 20, 1000 destinations, it’s that easy.
- **Touch friendly** - Comms is a Windows 10 application so can be used on any Windows 10 laptop, desktop, or Surface for a touchscreen experience.
- **Any NDI source** - Central will work with any full version NDI®source on your network, whether it is a feed from a live BirdDog PTZ Camera, the output from an NDI® compatible switcher.
