### Opis produktu

#### UHD-100

##### Micro UHD HDMI EFP Camera

Micro UHD 4K HDMI EFP Camera – The World's Smallest and Cost Effective 4K EFP Camera

UHD-100 is the world's smallest and most cost effective 4K EFP camera solution. Combined with its advanced 4K UHD Progressive Scan CMOS sensor and Digital Image Processor, the UHD-100 produces detailed videos that are sharp and true to color. By utilizing Dynamic Range, Adaptive White Balance, and motion-compensated temporal noise reduction filter, the UHD-100 effectively reduces noise for motion video even under low light conditions. The UHD-100 features a compact and rugged form factor with an interchangeable lens design making it highly versatile for various video applications.

##### Features:

- 4K UHD 1/2.5 Progressive Scan CMOS sensor captures sharp and vivid UHD video even under very low light conditions.
- Advanced digital imaging processor provides vivid and detailed images by utilizing Dynamic Range, Auto White Balance, and Noise Reduction.
- Superb motion-compensated temporal noise reduction filter for motion video without blurring.
- OSD control breakout cable with audio input and RS-485 for remote communication.
- Interchangeable lens design compatible with CS and C mount lenses.
- Perfectly suited for broadcast, pro audio/video, and security.
- Conforming with SMPTE 292M, 424M, and 2081-10.
- Versatile, compact, and rugged design.
- Default UHD 3.2mm Lens
