Opis produktu

BirdDog Flex 4K IN. 4K Full NDI Encoder with Tally, Comms, PTZ Control, PoE+, and DC Power Output.

The **Flex 4K HDMI In to Full NDI Encoder** from **BirdDog** is an ultracompact NDI interface for HDMI video sources. Connect your onboard monitor, camera, or other video source, and have it instantly be available on your NDI-enabled network. The BirdDog Flex In supports up to UHD 4K30 and 1080p60 resolution video.

Versatile power options include PoE or a separately available 12V power supply. A 15W DC output port enables you to power select monitors and cameras from your Flex 4K In power source. Tally information is displayed for both the talent and the operator and passed through to compatible equipment. Connect a separately available cable to the 2.5mm RS232 port for pass-through control of non-NDI PTZ cameras. Additional features include an adaptive bit rate, a cooling thermal design, and a headphone output for embedded HDMI audio.

Features:

- Ultracompact Form with HDMI 2.0 Input
- Supports up to UHD 4K30, 1080P60
- PoE & DC Power Options
- 15W DC Output to Power Monitor or Camera
- Halo Tally for Talent & Operator
- RS232 Port for Pass-Through PTZ Control
- Adaptive Bit Rate
- Software Tools Included
- Cooling Thermal Design
