Opis produktu

Blackmagic Design ATEM Camera Converter
Battery powered optical fiber converter with talkback, tally and mic inputs.

ATEM Converters revolutionize live production! Connect to cameras via optical fiber up to 28 miles away from a switcher and get bi-directional video, audio, talkback and tally signals! ATEM Camera Converter and ATEM Studio Converter can be used independently or together for the most amazing results. Camera Converter converts your SDI or HDMI camera’s video output to optical fiber and also embeds external audio from the camera location. It also includes talkback and tally!
Get everything you need for cameras in live production with a single converter! Connect your camera’s SDI or HDMI outputs for conversion to optical fiber, while your switcher program feed can be fed back via optical fiber for camera monitoring. ATEM Camera Converter includes an internal battery, talkback, tally, and microphone inputs!

Features:
- Highest Quality Connections
- Talkback and Tally
- Optical Fiber Link
- Designed for Live Production
- Blackmagic Utility Software
