Opis produktu

Blackmagic Design Audio Monitor

Rack mount audio monitoring from SDI, AES/EBU and analog audio sources

Blackmagic Audio Monitor gives you fantastic quality audio monitoring in an impossibly small one rack unit size! With a dual subwoofer design combined with extra wide range speakers all backed by a super powerful class A/B amplifier. Blackmagic Audio Monitor has been designed to be both an audio and video monitoring solution so you get advanced 6G-SDI in, as well as balanced XLR analog audio, balanced AES/EBU digital audio and consumer level HiFi audio inputs.

Blackmagic Audio Monitor features an elegant design with big bright multi color audio meters and a built in LCD for monitoring video sources. You even get HDMI 4K output so you can connect a television for big screen video monitoring of your SDI sources!

Key Features:

- Ultra HD 4K technology
- Crystal clear audio with a dual subwoofer design
- Digital and 5.1 Surround

- Dual subwoofer for power
- Easy Control
