Cena brutto	10 503 zł
Cena netto	8 539 zł
Dostępność	Na zamówienie
Numer katalogowy	DV/RES/BBPNLMINI
Producent	Blackmagicdesign

Opis produktu

The DaVinci Resolve Mini Panel is a compact panel that's packed with a massive combination of features and controls! Like the micro panel, you get three professional trackballs along with a variety of buttons for switching tools, adding color correctors and navigating your node tree. It also features two color LCD screens that display menus, controls and parameter settings for the selected tool, along with direct access buttons that let you go direct to the menus for specific DaVinci features. The DaVinci Resolve Mini Panel is ideal for editors and colorists that need to regularly switch between editing and color grading, or for freelance colorists that need to take their panel with them when moving between facilities! The mini panel is also great for colorists working on location shoots, for corporate and event videographers, houses of worship and more!

Features:

- Compact professional hardware control panel
- Featuring 3 high resolution weighted trackballs
- 12 control knobs for essential tools and an upper deck with two 5" screens
- 8 soft knobs and 8 soft buttons
- Dedicated keys for switching tools, working with nodes, grabbing stills, navigating the timeline
- Tie bolts on the base to attach to a desk
- Powering options - AC mains input, 4-pin XLR, PowerOverEthernet
