Opis produktu

Blackmagic Duplicator 4K

Now it's possible to distribute and sell Ultra HD content direct to customers at live events!

The Blackmagic Duplicator 4K makes it easy to deliver multiple copies of content to customers the moment an event is finished! You get an SD card duplicator with built in realtime H.265 encoding, which is the new standard for delivering Ultra HD. The Blackmagic Duplicator 4K is the best way to deliver Ultra HD content that customers can actually view on their 4K televisions today! The multi rate 12G-SDI connections let you record in all SD, HD and Ultra HD formats, up to 2160p60. The H.265 encoding gives you higher quality video in smaller files so you can use smaller and cheaper SD cards. You can even connect multiple duplicators together to make hundreds of recordings all at once!
