Opis produktu

DataVideo DAC-8P 4K
12G-SDI to HDMI Converter

Broadcast Quality 4K SDI to HDMI Converter
The DAC-8P 4K Converter converts 12G-SDI in resolutions up to 4K50/60 to 4K HDMI, it is easy to connect the 4K HDMI signal devices and professional 12G-SDI video equipment.
Featuring SDI input and both an SDI and HDMI output, audio is de-embedded from the SDI input, and available in the HDMI output and analog audio output.
The DAC-8P 4K Converter is useful for a variety of broadcast, professional AV and education applications.

Supports up to DCI 4K (4096 x 2160) and UHD 4K (3840 x 2160)
The DAC-8P 4K is broadcast quality converter, and it supports up to DCI 4K (4096 x 2160) and UHD 4K (3840 x 2160).
The DAC-8P 4K is also very easy to use. It is a plug and play converter, and there is no setting needed from your laptop.

12G-SDI input and loop-thru output
In addition to the converted 4K HDMI output, there is a 12G-SDI loop thru for sending a signal to other devices in your workflow.

Supports SDI Re-Clocking
DAC-8P 4K will regenerate the SDI video, and provideo less SDI jitter to improve SDI eye pattern. DAC-8P 4K allows for a long cable transmission.

Not only a video converter, but also an audio de-embedder.
DAC-8P 4K provides a video converter from SDI to HDMI, and it also provides you an additional de-embedded 2-channel RCA analog audio output from SDI video to your live production.

Aluminum appearance design, rugged and durable
Super sturdy and durable. The DAC series has a rugged metal housing for use in even the roughest conditions. Low heat dissipation, ideal for long hour operation in normal ventilated environment.
