Opis produktu

DataVideo KMU-200

All-In-One - Video Switching, Streaming, Audio Mixing and Camera Control Easy to Operate

MU-200 has two video modes. Horizontal video mode: video switching, video recording, live streaming, audio mixing, camera control. Portrait video mode: video switching, video recording, audio mixing, camera control, professional portrait video live streaming software. Create your own unique live show.

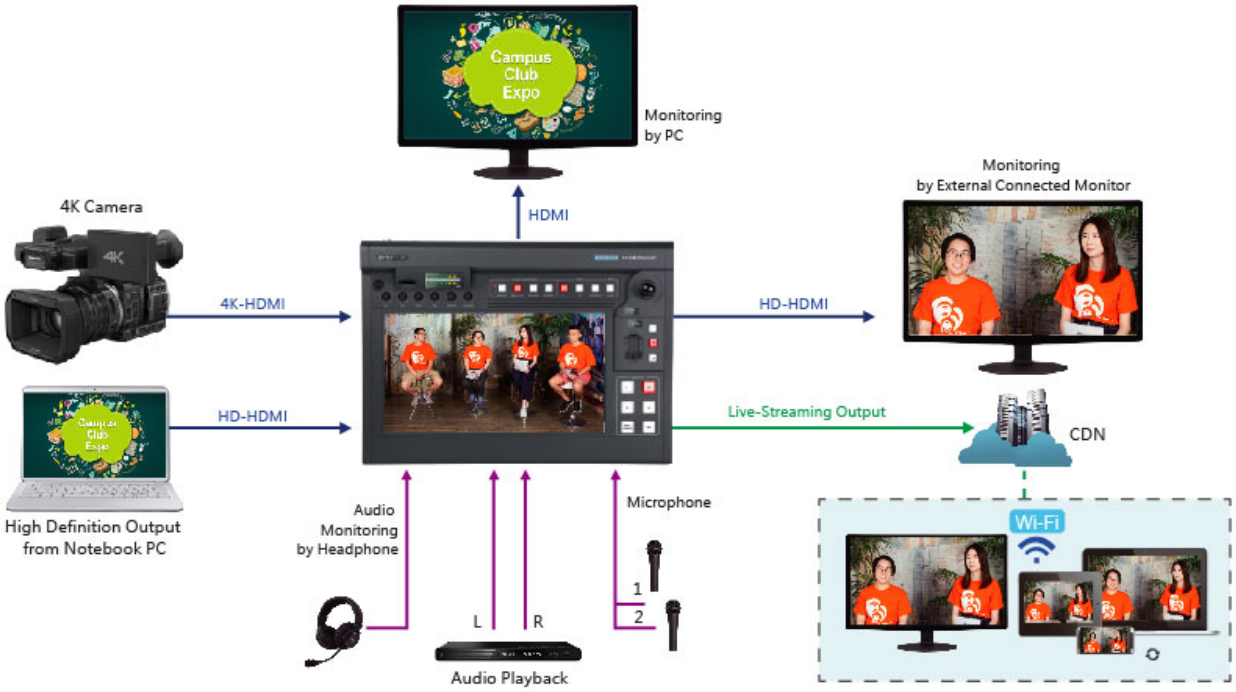

4K video input, the KMU-200 can capture up to 4 sets of Full HD video. The cropped 4K video images provide you a live video production just like with 4 camera EFP workflow.

The KMU-200 has a PTZ camera control function, it is easy to control and operate the camera.
Easy operation by touch screen with your finger. The 14-inch touch screen allow user to specify the screen switching with gestures. Additionally, the joystick and knob can also be used to control the KMU-200's screen selection.
Six buttons to live switch. It is easy to switch the four frame selection screens on the right side of the screen, the full screen or the computer output button. The frame selection can be preset in advance for easy live video production.
USB transfer plug and play. With the external CAP-2's USB video capture box, user can connect KMU-200 with mobile phone or laptop for a live video or post-editing.
Direct stream to the live broadcast platform. The built-in H.264 encoder can instantly live streaming to any live broadcast

platforms.
