### Opis produktu

Universal AC to DC Power Distribution Center

**Datavideo PD-6** is a 19" rack mountable universal AC to DC Power Distribution Center, designed to supply steady and sequenced voltage for production kit whilst on location or in your studio. Perfect for use in conjunction with Datavideo studio equipment and the CB-22H / CB-23H via a single power cable. Each of the eight outputs can be configured individually, DC48V, 24V, 14.4V & 12V, with a total power consumption of 360W.

#### Features:

- Automatically adjusts to work with 50Hz or 60Hz supplies between 100-240 VAC
- 8 DC outputs with a combined total power consumption of 360W
- Each DC output can be switched to provide 12, 14.4, 24 or 48v
- Each DC output has a multi-colour LED confirming the chosen voltage by colour
- The unit is designed to provide both DC & AC overload protection
- Compatible with CB-22H, CB-23H, DDC-4012H en VP-605H. Please note that the "non-H" versions of these accessories are NOT meant to be used on the PD-6. Refer to FAQ for more information.
- Standard 19" - 1U rack mountable case
