Opis produktu

DataVideo PTC-285 4K Tracking PTZ Camera

Brand New 4K AI Tracking PTZ Camera

Live productions depend on high performance cameras and camera controllers.

Datavideo is introducing the 4K50/60p Ai tracking PTZ camera , PTC-285 can be easily controlled via traditional RS-422 serial port, or IP remote control via DVIP (Datavideo proprietary protocol) or Sony VISCA over IP. This brand new 4K camera series supports dual streaming output for A/V market application. You can easily stream to Facebook (RTMPS), YouTube and dvCloud.

Datavideo also provides extended models such as PTC-285T 4K HDBaseT and NDI to meet the needs of different workflows.

Simultaneous Outputs

Connect your PTC-285 to multiple devices in your workflow for flexibility. All the outputs are active at the same time.

Quick Access to Camera's AI Tracking

You will be allowed direct access to AI tracking via various external controllers such as the supplied RMC-1 remote control and DVIP controllers (RMC-300A, RMC-180 MARK II and PTC View Assist).

Custom AI Object Tracking

If you are filming multiple people, you can designate a person for AI tracking. Once linked to the camera, only the designated person will be tracked, avoiding interferences such as the desks, people coming back and forth, large objects, etc.

Smart PTZ Speed Adaptation

The integrated PID algorithm is able to detect the movement speed of the identified object and automatically adjust the camera's corresponding pan, tilt and zoom speeds in such a way that the lens movement will be smooth, avoiding common camera lens movement problems like jerky movements or unpredicted halts.

WARUNKI Gwarancji do 36 miesięcy

Warunkiem uzyskania gwarancji do **36 miesięcy** jest wymagana **obowiązkowa rejestracja** produktów w terminie **30 dni od dnia zakupu**. W przypadku braku rejestracji obowiązuje standardowa gwarancja **12 miesięcy od daty zakupu**.
