Opis produktu

**DataVideo TP-900
PTZ Camera Teleprompter**

Designed Specifically for PTZ Cameras
The TP-900 teleprompter is designed specifically for PTZ cameras. Mounting the PTZ upside down removes the operational limitations of a PTZ camera within a prompter, the PTZ has greater movement in the shots it can achieve.

Universal fitment
The TP-900s unique camera mounting system allows both horizontal and vertical adjustment and supports most PTZ cameras in the market.

Unique and innovative design, suitable for any PTZ camera
Live video production with a PTZ camera can also use a professional teleprompter, and TP-900 PTZ Camera Teleprompter is your good choice. TP-900 can be set up on a camera tripod and placed anywhere you want to do the video production, making your live video production extremely professional and easy.

Suitable with any PTZ camera sizes
The thoughtful and professional design allows teleprompter curtain to have the size adjustment. Any PTZ camera size is suitable for TP-900 PTZ Camera Teleprompter.

Built in Teleprompter application
The TP-900 features a bright 15" 4:3 LCD screen with the powerful dvPrompter Plus application built in, there is no need to run software on a laptop.

Easy control and monitoring via Ethernet
Control and monitor the prompter over a local network using any device with a modern web browser, Load, reload and control scripts over a local network.

Synchronize multiple units via HDMI or IP
Connect multiple TP-900s together using the HDMI input and output or use IP synchronisation over Ethernet.
The HDMI input also allows the 15" LCD screen to be used as a HDMI monitor with third party software if required. The HDMI output can also be used to drive external displays.

Powerful rich text editor
You can remotely change the font size, type, colour and justification on a per script basis and even use multiple different fonts within a single script. The editor also has support for embedding images and creating playlists from multiple scripts.

P2P Interview Configuration
When using two TP-900 together in a P2P (Peer to Peer) interview configuration, the interviewer and the interviewee are able to look directly into the camera lens while still seeing and looking directly at an image of each other. This equates to a natural one-on-one interview style which is also (because of the direct eye contact) much more involving for the audience. When the interviewer asks a question, he or she is looking right into the eyes of the viewer. When the interviewee answers the question, he or she is also looking directly into the eyes of the audience and in essence giving his or her answers to them.

The TP-900s high brightness 15" screen features mirroring in hardware, simply connect HDMI cables between the cameras and screens and you are ready to go.

Video Conferencing
Look natural on camera, the TP-900 allows you to see your guests while looking directly into the centre of the camera lens. The TP-900s high brightness 15" screen features mirroring in hardware, simply connect your VC system via HDMI and you are ready to go.

Online Presentations / Webinars
Look natural on camera, view your presentation or the program output of your switcher while looking directly into the centre of the camera lens. The TP-900s high brightness 15" screen features mirroring in hardware, simply connect your presentation system or switcher via HDMI and you are ready to go.

Supports PowerPoint and Keynote slides
In addition to text-based scripts you can now import your Powerpoint or Keynote presentation slides via the web interface, slides can be controlled using the hardware WR-500 control or the web based remote control interface. dvPrompter Plus supports seamlessly switching between text-based scripts and slides, you can even add slides and text-based scripts to a playlist. dvPrompter Plus supports mirroring slides in real time so your content is the right way around even when viewed via the mirror glass.

Real Time Editing
Interrupt live broadcasts with breaking news or urgent updates, simply modify the script via the web interface and watch it update in real time.

Optional hardware Controllers
The TP-900 can also be controlled using our WR-500 handheld remote, FS-30 Foot Pedal or any generic presentation remote with a USB receiver.
