Opis produktu

Tracking Virtual Studio System

TVS-2000A is the world’s first true 3D tracking virtual studios that utilize PTZ camera position tracking. Tracking the camera movement with a PTZ camera ensures a lifelike and convincing virtual experience. Using a 3D studio with PTZ tracking is another game changing invention of Datavideo that helps the end user create high-end productions in a cost effective way. This 3D virtual studio is available in two ways. A regular rackmount 4RU PC chassis is available to be built in into your existing studio. And for the first time ever we’ve built a handcarry version of one of our virtual studios. Especially when you create educational productions, or when you travel to different production facilities this system will be of your preference. The handcarry version houses the full system, control panel and a monitor into a compact flightcase.
Setting up this virtual studio is not harder than setting up a regular PTZ oriented camera production. Since the studio relies on the position data from the camera movement, you don’t need a tracking jib or crane. This solution will bring high-end virtual studio production right to your school, local TV station or business.

Features:

- World first and only 3D Tracking Virtual Studio System using PTZ camera as tracking camera
- Integrated whole 3D tracking virtual studio system into a rack mount/desktop style, RMC-280 control panel included for live virtual show and cameras control
- Supports Tracking Virtual Studio and Trackless Virtual Studio simultaneously
- With 2 channels SDI input, can simulate 4 camera studio operation (Trackless Mode)
- All 4 virtual cameras have real pan, tilt, zoom movements
- 1 channel HDMI AUX input for powerpoint from laptop, or any other live video sources
- Supports Mini phone jack audio input, can embed external audio into SDI/HDMI PGM output
- 2x DSK to add CG and animations to the scene
- Come with 10 function keys (F1-F10), can help to set quick animation, change scene or media content. Making production easier
- Chromakey wizard helps to achieve perfect keying effect
- 3D tracking virtual studio system using Datavideo PTC camera as tracking camera, setup a tracking virtual studio fast and easy
- TVS-2000A has Virtual Studio, Switcher, Character Generator, Recorder and Streaming functions built-in
- Built-in free Virtual Set Wizard and massive amounts of 3D objects to guiding user step by step to build up a customized 3D virtual studio
- More virtual set background and 3D objects database online for download on www.DatavideoVirtualSet.com
- Amazingly high CP value, suitable for all kinds of user from schools, TV stations to personal production studios

Rozszerzenie gwarancji

Produkty **DataVideo** objęte są **12 miesięczna gwarancją**, można bezpłatnie rozszerzyć gwarancję do **60 miesięcy.**
W tym celu wystarczy zarejestrować produkt w przeciągu **30 dni od daty zakupu** na stronie producenta.
