Opis produktu

Kiloview MG300 Media Gateway

Kiloview MG300 media gateway is a high-performance embedded multi-functional device. It integrates functions such as multi-channel video decoding between NDI|HX, SRT, RTMP, RTSP, TS-UDP, and HLS to SDI and HDMI. It can do so with the same or different content, multi-view output and streaming, video image segmentation, protocol cross conversion, stream media and distribution services.

Features:

- Protocol conversion
- Stream distribution
- 9 channels video split to the display wall
- Multi-stream switching
- 7*24h working mode
- SDK provided
- Monitoring video to live broadcast
- Monitoring video to the public security network
