Opis produktu

Magewell Ultra Encode AIO

The Magewell Ultra Encode AIO is an Advanced encoder for Streaming and Recording. This encoder is able to encode and stream one live HDMI 4K 30fps input or Full HD 3G-SDI 60fps input. The picture-in-picture and other overlay options allow users to merge both HDMI and SDI inputs for a combined output.
This powerful encoder offers sumltaneous multi-protocol streaming up to eight channels at a bitrate of 32Mbps per stream. Users can choose from a wide variety of formats such as, H.264, H.265 (HEVC), NDI®|HX 2, and NDI®|HX 3. Delivery protocols include RTMP, RTMPS, SRT, RTSP, RTP, HLS, and TVU’s ISSP technology.

- Mixes video from the HDMI and SDI inputs
- (picture-in-picture or side-by-side) into a combined output.
- Allow simultaneous 6 sessions over multiple streaming protocols at 32Mbps per session.
- Variable bitrate control (VBR) - set different bit rates to different streams
- High-efficiency, low-bandwidth NDI®|HX 3 supported.
- Supports streaming and recording schedule.
- Rack-mountable form factor.

Key Features Ultra Encode AIO
The Ultra Encode AIO takes the capabilities of the current Magewell ultra encode product line to a whole new level. The single unit AIO encoder offers expanded features such as input connectivity for both HDMI and SDI. Encode and stream in 4K from the HDMI input or up to 1080p HD at 60 fps from the 3G-SDI input.

Main Features:

- **HDMI:** Encode and Stream up to 4096x2160 at 30fps
- **3G-SDI:** Encode and Stream up to 1080p HD at 60 fps
- **Multi-stream:** Allow simultaneous 6 sessions over multiple streaming protocols at 32Mbps per session.
- **Picture-in-Picture:** Encode and stream the HDMI and SDI inputs simultaneously as a combined input by using the picture-in-picture or side-by-side modes.
- **Configurable overlays:** text, clock, images etc.
