## Opis produktu

### Magewell Ultra Encode HDMI

The Magewell Ultra Encode HDMI supports high-quality H.264, H.265 (HEVC), encoding. Stream Full HD video simultaneously to Facebook, YouTube, Twitch and other streaming platforms. This device supports also other streaming protocols such as SRT, NDI|HX, HLS, RTMP, and RTMPS with wired or wireless network connectivity.

HDMI input support for up to 4096x2160 4:4:4/4:2:2 30fps or 4096x2160 4:2:0 60fps input and loop through signals. Ultra Encode can be combined with our Pro Convert decoders to form flexible AV over IP infrastructures leveraging NDI®|HX and SRT technology. The devices can be configured and controlled through an intuitive Web GUI or HTTP-based APIs, providing systems integrators with exceptional deployment and integration flexibility.

*A Flexible & Affordable Universal Encoder:*
- Live H.264/H.265 streaming
- Supports streaming protocols including SRT, NDI|HX, HLS & more
- Suitable for various network environment

# Magewell

Magewell was founded in 2011 as an R&D center and manufacturer of video capture devices. We have been breaking boundaries ever since, expanding our technologies to live streaming, encoding and playout as well as embedded systems for video processing. Our solutions are widely deployed around the world for applications including live streaming, broadcast production, video conferencing, lecture capture, medical imaging, security, machine vision, gaming, virtual reality production and many more.

In addition to empowering end-users, our products are also incorporated into a wide range of third-party solutions on an OEM basis by other industry-leading manufacturers. Our products are available globally through our valued channel partners including distributors, resellers and systems integrators.
