Opis produktu

Marshall Electronics CV420-30X-IP | HDMI Output

The CV420-30X-IP 30X Zoom IP Camera utilizes a professional 8.5MP sensor to capture brilliant 4K (UHD) with true colors up to 3840x2160p at 60fps with support for all HD formats.

The 30X optical zoom block offers a flexible zoom range of 4.6 to 135mm starting at 68° through 3° horizontal angle-of-view for maintaining image crispness in both wide and tight shots.

Exceptional low-light sensitivity ensures the CV420-30X-IP will maintain a clear picture in variable lighting conditions for live events, houses of worship, indoor/outdoor sporting events, and other dynamic lighting environments.

Ideal for use in networked A/V installations, the CV420-30X-IP offers the convenience of triple-stream (H.264/H.265/MJPEG) and HDMI outputs with audio embedding.

Marshall's straight forward design and ease of use make this camera a valuable tool in a wide variety of broadcast and professional A/V applications.

Features:

- 8.5 Megapixel (1/2.5") 4K (UHD) sensor
- 30X Optical Zoom (4.6~135mm) - 68° AOV
- Up to 3840x2160, 1920x1080, and 1280x720p
- Frame-rates: 59.94/50/29.97/25fps
- Triple-stream IP (H.265/H.264/MJPEG) and HDMI 2.0 outputs
- Ethernet I/O supports video, control, and PoE over a single cable
- RS232 and 3.5mm audio input with passthrough
- Visca over IP, Onvif, SRT compliant
