Opis produktu

Spark Plus™ IO 4K

NewTek Spark™ Plus IO 4K are portable, affordable UHD 60p NDI® - HDMI media converters. Capture media directly from connected cameras or devices and convert to high bitrate NDI®, or take NDI® streams from the network and convert them for display on screens, monitors, projectors, or video walls. A Spark Plus IO 4K device is the fastest, easiest, and most flexible way to integrate HDMI devices into your IP-based video production workflows from anywhere on the network and avoid the cable length limitations of HDMI.

Newtek Spark Plus IO 4K offers all types of media production professionals a quick and easy solution that does not require technical expertise, or an enterprise-level network infrastructure to use up to UHD 60p video in IP based media production workflows. Spark Plus IO 4K is compatible with hundreds of systems, devices, and applications that support innovative Network Device Interface technology and is ideal for live production, streaming, sports, competitive and social gaming, corporate communications, classroom production, and more. Say goodbye to cost, cables, capture or display cards, and confusion.

Unique Selling Points

- Versatile UHD encode or decode NDI-HDMI conversion with support up to 2160p 60
- Easily route NDI® to displays, great for digital signage opportunities
- Works perfectly with TriCaster systems for configuration free NDI interoperability
- Hundreds of third-party devices that supports NDI® needing IO connectivity

eSports - Unique Selling Points

- Take eSports streaming to a new level with an UHD PC or console output
- Send UHD signals between hardware devices without capture cards
- Distribute UHD content to multiple screen types in eSport facilities and tournaments
- Easily bring multiple computer workstations with multiple resolutions into live production

Education and Training - Unique Selling Points

- Enhance video teaching apps like Panopto and Zoom with NDI enabled cameras and devices
- Perfect for advanced multi-camera lecture rooms, complex medical or lab training, and simulation scenarios where every camera and screen capture is critical to enriching the remote learning process
- Cut costs and save time with IP video-based management and monitoring across campuses
- Quickly route critical video messaging to digital signage and screens across campuses

Corporate and Government- Unique Selling Points

- Enhance meeting and conference software by converting Pro AV cameras into NDI sources
- Route critical video content to screens and digital signage across network
- Fastest way to utilize IP based workflows with low latency and high quality
- Save time and reduce resources with IP based remote management and monitoring
