Opis produktu

Mikser softowy vMix Basic HD

vMix Basic HD jest to oprogramowanie, które pozwala na tworzenie profesjonalnej jakości produkcji na własnym komputerze za niewielki koszt. Vmix umożliwia dodawanie wielu kamer, materiałów video, zdjęć, plików audio, strumieni internetowych, plików PowerPoint oraz wielu wielu innych, które możemy umieszczać w naszej produkcji. Dzięki temu niezwykłemu oprogramowaniu jesteśmy w stanie wyświetlać, zapisywać i transmitować nasza produkcje w tym samym czasie.

vMix może być wykorzystywany podczas dużych imprez, podczas których wykorzystywanych jest wiele kamer lub też podczas pracy z jedną kamera do transmisji internetowej. Oprogramowanie wymaga jednorazowej opłaty aktywacyjnej ważnej cały rok. Kiedy zapłacimy mamy możliwość otrzymania darmowej aktualizacji danej wersji oprogramowania na całe 12 miesięcy. Po upływie tego czasu możemy wpłacić niewielką opłatę aby otrzymać najnowszą i najlepszą wersję oprogramowania Vmix.

Funkcje

4 CAMERA SLOW MOTION INSTANT REPLAY

- Enhance your live sports productions with the power of instant replay! vMix Replay continuously records up to four cameras simultaneously in full HD so operators can review the action and jump back to any point in the game all with real time control over camera angle and playback speed. 2 channel playback is also included with the ability to show audiences two camera angles side by side or in almost any arrangement you can think of.

CAPTURE EVENTS WITH THE CLICK OF A BUTTON

- Create events on the fly with the traditional Mark In a Mark Out buttons or use the time saving 5, 10 and 20 second button presets. If a goal is missed, no problem! Simply drag the position slider back in time to any moment in the game to create a new event. Tags can be added to any event with the click of a button and each event can be moved to one of four events categories.

CREATE HIGHLIGHT REELS WITH MUSIC QUICKLY AND EASILY

- Keep the audience engaged at half-time with easy highlight reel creation. Simply select one or more events and click Play Events to watch all the action unfold with built in transitions and optional background music.

CONTROL ALL THE ACTION WITH THE SHUTTLEPRO OR KEYBOARD & MOUSE

- vMix Replay works out of the box with the Contour Design ShuttlePRO v2 allowing fine-tuned control over slow motion with the jog dial and frame by frame movement with the shuttle wheel. Each of the 15 buttons can be customised to control almost anything in vMix including Mark In/Out and switching camera angles. Standard keyboard and mouse controls can also be used including the ability to control slow motion with the scroll wheel.

SELECT SOCIAL MEDIA CONTENT WITH ANY WEB BROWSER

- View a live Twitter feed based on Search, Home Timeline, User Timeline or Favorites.
- View Facebook comments from a page you manage
-
- View Twitch Chat messages
- View YouTube Live chat comments on your youtube live streams.
- View messages from any IRC chatroom.
- Content can be viewed and approved via any web browser including Tablets and Smart Phones

USE THE INCLUDED SOCIAL TITLE TEMPLATES OR DESIGN YOUR OWN

- Each template allows you to display content such as Name, Message and Photo.
- vMix also includes a Title Designer to design your own.

PROFILE IMAGES AND PHOTOS SUPPORTED

- Title templates include support for Profile Images and Photos from either Twitter or Facebook.

AGGREGATE CONTENT

- Aggregate content from multiple sources including IRC.

ADD UP TO 8 REMOTE GUESTS TO YOUR VMIX PRODUCTION

- vMix Call makes it easy to add remote guests to your vMix production.
  With only a web browser and webcam your guest can connect into your live show with HD video and high quality audio from anywhere in the world.

EASY TO USE

- vMix Call is the easiest way to add guests to your live production. Simply add a new vMix Call input to vMix and share the provided web site with your guest to login, it couldn't be easier! Repeat this process for as many guests as you

need up to the 8 available in vMix Pro.

HASSLE FREE AUDIO

- vMix Call integrated Automatic Mix Minus for every remote guest which eliminates echo and saves time.
- Automatic Mix Minus allows vMix Call to provide true full duplex audio without compromises for crisp high quality speech even under tough conditions.
- Manual audio control is also available including the ability to customise the return audio to the guest from one of the four available audio busses in vMix (Master, Headphones, A and B).

FULLY INTEGRATED

- Take advantage of all the advanced production features in vMix when setting up your call. vMix supports multiple

overlay channels, virtual sets and templates which can be used to enhance your production and dazzle your viewers. Everything else you need for any live show is also included such as integrated streaming to your favourite providers, built in recording and so much more!
