Opis produktu

GPIO Control Made Easy

Setting up an I/O device have never been this flexible. Connect and control anything from your tally lamps, trigger ATEM switcher routines, control a HyperDeck, change Scopes on a SmartScope Duo and route inputs/outputs on a VideoHub. Defining parameters – single or multiple - for inputs/outputs is extremely fast, thanks to the drop-down menu structure in UniSketch OS. Connect and control up to 8 devices at the same time!

Features:

- 2 x DB25 Connector Configuration
- 16 GPO
- 16 GPI
- UniSketch web interface for extensive configuration
- Enclosure Size 12.7 x 8 x 4.9 cm
- Weight 0.300 kg
